

## Chicago Software Process Improvement Network (C-SPIN) Meeting <http://www.c-spin.net/>

AT&T Center Campus  
AT&T Institute 2501 W. Eagle Way at  
Lakewood Blvd and Eagle Way, Hoffman Estates, IL 60196

Be sure to check the C-SPIN website (<http://www.c-spin.net/>) to confirm details.

### **Wednesday, September 3, 2008**

6:00 - 7:00 PM – Atrium: Registration, Networking, & Light Refreshments

6:20 - 6:40 PM – Birds-of-a-Feather Topic [See sign-in table for details.]

7:00 - 8:30 PM – Auditorium: Presentation

8:30 - 9:00 PM – Auditorium: additional Q&A and discussion

# **XMM: Ten-Minute Madness**

In September we will be repeating last year's experiment in **Ten-Minute Madness**, when we present a series of 10-minute presentations on various topics with no unifying theme or connection. The speakers will include:

- **Chris Kaufman** on Continuous Build
- **J. R. Jenks** on Agile Development in a Regulated Environment
- **Ross Fraser** on Test Data Privatization
- **Robert Stalzer** on IEEE Software Engineering Certification – PI Focus

### **Driving and Parking Directions**

From I-90 Northwest Tollway, exit North on Barrington Road. Take Barrington Road to Lakewood Blvd (2nd light) and turn East (right) onto Lakewood Blvd. Turn right into the AT&T Campus Center's West Employee Entrance (the first entrance past Eagle Way) and follow the signs to the West Parking Structures.

Parking is available in covered lots W2 or W3 as well as upper level parking lot W1. Look for parking spaces towards the west end of the parking structures. The Institute Building, located across the road (west of the parking structures), is approximately a 3-5 minute walk from the parking structure. Visit <http://www.c-spin.net> for a map of the AT&T Campus Center.

### **About C-SPIN**

C-SPIN is made possible through the efforts of its Steering Committee. The Steering Committee is composed of Alan Berow, Kathy Brown, Steve Coffman, Steve Huck, Nan Krull, Karen Mermel, Donna Miller, Sara Reif and Robert Stalzer.

C-SPIN is a leadership forum for the free and open exchange of software process improvement experiences and practical ideas. We promote achieving higher levels of process maturity, software quality, and mutual respect. Companies, academic institutions, government organizations, and individuals are invited. For more information regarding this meeting, contact Kathy Brown at [klbrown@mosaicinc.com](mailto:klbrown@mosaicinc.com). For information about C-SPIN or the steering committee, contact Robert Stalzer at [cspin@coderelay.com](mailto:cspin@coderelay.com).

To receive future announcements electronically, register your e-mail address (include name, personal email address, company, and phone number) <http://c-spin.net/newsletter/>.
